

The Mission of Build My Future Northwest Ohio:

"To encourage and motivate the youth in and around Northwest Ohio to pursue a professional career in the skilled trades while promoting & raising awareness of the home building industry."

October 12, 2023

Wood County Fairgrounds

Like many, the trades industry is hurting for hard working individuals to keep up with demand. After a lot of brainstorming & research, the HBA is thrilled to announce our newest endeavor - Build My Future. Teaming up with industry experts and local schools, we're making a change to keep our industry growing for years to come.

We Need YOU!

Day of Volunteers, Committee Members, Exhibitors, Sponsors, Donations - **we NEED it all!**

While many of the exhibitors will be trades-related and supplier members, the future of our industry is important to all of us. Our Associate Members are going to play a vital role in the success of this event. We will need several volunteers, sponsors and donations due to the large nature of Build My Future!

Build My Future NW Ohio is a one-day construction career event for high school students in Northwest Ohio and the surrounding areas. Interactive learning labs from businesses in the skilled trades & building industry will provide the students with hands-on opportunities to experience what their future career could look like. Schools will send students for the day (approximately 5 hours) for activities provided by industry partners. Student activities include hands-on Learning Labs, equipment operation & educational displays.
